- Geothermal pipes, range 32/62 to 315/400
- Pipes for drinking water, hot and cold
- Double, quadruple and individual solutions for pre-insulated pipes

40 YEARS OF FAMILY TRADITION

Innovative solutions in the production of pre-insulated PEX pipes

The power of values that connect generations. A bridge between tradition and innovation

Synco is a Polish family business with over 40 years of experience, providing high-quality products and innovative solutions. Our mission is to build long-term relationships that support the development of customers and the team.

We specialize in creating space for scientists and technical specialists who can implement innovative ideas.

One of our key achievements is the ecological system of pre-insulated PEX pipes, based on our own patents. Our systems are used in thousands of projects around the world, ensuring reliable transmission of hot and cold water and other media.
